*We appreciate the uniqueness of this community and have a mutual desire to strengthen friendships, exchange ideas, and enhance the true "Spirit of Scottsdale".*

**Women of Scottsdale** offers its members monthly opportunities to network in a unique and special way. In the refined setting of an elegant reception and luncheon, ties are forged to create a deep and long-lasting community of mutual support. Business and professional women, community leaders, women in government, women in education, and those who have retired—all are welcome as members.

A non-commercial, social atmosphere encourages stimulating conversation and the informal, candid exchange of ideas. This environment is fostered not only by the variety of interests and involvement of the women attending, but by the variety of themes around which the luncheons are presented. Some are straightforward, some more whimsical, but all introduce the members to new possibilities for growth and involvement.

Sponsors are given the opportunity to address this discerning audience and to provide information. Members are encouraged to exchange business cards on an individual basis. Everyone benefits, and has a great time along the way.
